

Firemen Plan Anniversary Celebration July 1-9; To Hold Annual Parade July 7

Plans for observance of the 97th anniversary of the Battle of Gettysburg were outlined Monday evening at a meeting of the committee in charge from the Gettysburg Fire Department at the engine house.

The program will be conducted July 1 through 9. A service marking the 50th anniversary of the dedication of the Pennsylvania Monument is scheduled for July 1. Several programs are listed for July 2. The annual memorial service will be held Sunday night, July 3. Special programs including a re-enactment of Pickett's charge and a military parade are scheduled for the July 3-4 period. The festival will continue through Saturday night, July 9.

The annual firemen's parade will be held Thursday evening, July 7, with \$1,200 in prizes, the same amount as last year, listed for the participants in the procession. The parade committee said there will be no major changes in the awards for the various divisions of the parade.

Arrange Amusements
While final decision was not reached, a discussion was held on the possibility of installing poles and electric lights in the Recreation Field area used for parking in connection with the festival.

Contracts were signed for a ferris wheel, merry-go-round, flying chairs, airplane ride, and three smaller rides for children, similar to the amusements provided at last year's festival.

General Chairman Frank Linn, who had announced the committee heads Monday, listed at the meeting the names of the various committee members. They include:

Town To Clean Off Walks And Assess Fines

Gettysburgians who have failed or neglected to shovel the snow off their sidewalks, following the weekend snowfall, may find it an expensive piece of forgetfulness.

The highway crew of the borough has been ordered to clear the snow off the walks of those householders who have not done so and to assess them a minimum charge of \$3 and the customary fine.

A borough ordinance provides that all snow must be cleared from sidewalks within 12 hours after the snow has stopped falling. Failure to do so results in a fine plus the charge of the borough crew to clear them.

To Enforce Ordinance
After Saturday's snowfall the borough crew started hauling snow away from the metered areas after the streets had been plowed. Most of the work was completed Monday. This morning the crew was busy clearing snow at traffic lights especially where there are dual lights.

In addition to this the crew was called upon to do "repeat" jobs at places where householders shoveled their walks after the snow had been hauled away from the curb. They shoveled the snow into the streets. "This makes for hazardous driving" a borough official said.

Now the crew will start shoveling snow off sidewalks where householders had failed or neglected to do so.

"The ordinance must be enforced, regardless of who or where the violation is," a borough official said.

STUDY MERGER OF SEMINARIES

Possible merger of Lutheran seminaries here and Philadelphia was discussed Monday at a meeting of the subcommittee of the Joint Commission on Lutheran Unity at the Zion Lutheran Church in Harrisburg.

Dr. Chester P. Simonton, of York, president of the board of directors of the local seminary, was appointed chairman of a special committee to make further studies of the merger. His report will be submitted at the April 8 at the seminary in Philadelphia.

Arguments for combining the seminaries centered around the advantages of a larger institution with a better faculty and increased facilities.

Judge James F. Henninger, judge of the common pleas court in Lehigh County and chairman of the Joint Commission's subcommittee, said his group could only submit a recommendation. Adoption of merger plans will depend on approval by the board of directors of the seminaries involved.

Times To Publish Story Of Sickles-Key Tragedy

On Thursday The Gettysburg Times will publish the first of two articles on the famous Sickles-Key tragedy that rocked the national capital many years ago.

TAYLOR
Don't miss these two pieces. The first will be published in The Times Thursday.

Atty. Leighton C. Taylor, of Bendersville, has fashioned an interesting two-part article on this tragedy that makes fascinating as well as thrilling reading. He reveals the highlights in the life of Major General Daniel Edgar Sickles, of Battle of Gettysburg fame, where he lost a leg during Pickett's Charge on the afternoon of July 3, 1863.

Sickles' fabulous career in the New York legislature, in the Civil War, in Congress and at the Court of St. James, London, are unfolded in a colorful style in these two articles. Two excellent photographs of Sickles and Key, son of the composer of The Star Spangled Banner, accompany the articles.

G. HENRY ROTH TELLS ROTARY ABOUT LINCOLN

Despite efforts to build a legend that Lincoln was a failure before he became President of the United States and despite Lincoln's own beliefs, "Abraham Lincoln, one of the greatest men the nation has ever produced, could by no means be considered a failure at any point of his career," G. Henry Roth, a reporter for The Gettysburg Times and past president of the Gettysburg Civil War Round Table, told the Rotary Club at its meeting in the YWCA Monday evening.

"There is no need for a Lincoln legend. The facts of this man's life are greater than any legend that could be invented," he said.

"Those who would build a legend of failure start with his defeat for the legislature in Illinois. True he was defeated, but let's consider the situation. Here was a young man barely 23 years old. He ran for office in New Salem, Ill., where he had been a resident but two years. He was defeated at 23 but he was elected at 25 and he served four terms as a member of the Illinois legislature. Is that being a failure?"

Had Little Schooling
"Here was a young man whose formal schooling amounted to only a few months. His father was uneducated. Yet let us consider the notice he placed in the Sangamo Journal of Springfield, Ill., when he determined for the first time to stand for the legislature. He wrote, 'Having become a candidate for the honorable office of one of your representatives in the next General Assembly of this state, in accordance with an established custom and the principles of true republicanism, it becomes my duty to make known to you—the people whom I propose to represent—my sentiments with regard to local affairs.'"

"He spoke of the value of opening roads and streams but held, 'It is folly to undertake works of this or any other kind without first knowing that we are able to finish them—as half-finished work generally proves to be labor lost.'"

Wanted Navigable River
"Speaking of plans for a railroad Lincoln said, 'The probable cost of this contemplated railroad is estimated at \$250,000, the bare statement of which, in my opinion, is sufficient to show the wisdom of the Union.'"

Will Discuss S. S. Curriculum's Aims
Miss Nancy J. Dietrich, a representative of the publications division of the Board of Christian Education of the United Presbyterian Church in the U.S.A., will visit the local Presbyterian Church on Wednesday.

At 8 o'clock that evening she will talk to the officers and teachers of the Church School on the use and purpose of the faith and life curriculum materials in use in most departments of the school here for the last decade. The Wednesday evening session is open to all interested.

President Asks Congress For 4 Billions In Aid

WASHINGTON (AP)—President Eisenhower asked Congress today for \$4,175,000,000 in new foreign aid funds to safeguard the free world against the "enormous power bloc of Communist imperialism."

"The mutual security program is essential to world progress in freedom, he said in a special message to Congress.

The sum, nearly a billion dollars more than Congress voted last year, would be split up in this way: Two billion dollars for weapons aid to allies and \$2,175,000,000 for economic and technical assistance.

Refers To Tour
In appealing to the legislators to avoid drastic cuts in the program, Eisenhower mentioned his 11-nation December goodwill tour to Asia, the Middle East and Europe.

"My recent travels impressed upon me even more strongly the fact that free men everywhere look to us, not with envy or malice but with hope and confidence that we will in the future, as in the past, be in the vanguard of those who believe in and will defend the right of the individual to enjoy the fruits of his labor in peace and in freedom," he said.

Red Menace Remains
Eisenhower said that without the billions in foreign aid voted by Congress in the past 14 years, "the map of the world would be vastly different today because of the failure of Communism."

"Tobey's will continue to represent the same high standards and the same honest policy as in their last 20 years in Gettysburg. However, with the younger and more active leadership of the Radbills, who have been in retailing for many, many years, and with Mrs. Shirley Dessen's experience in catering to the fashion needs of the women of Adams County, they hope to bring to Gettysburg a new 'Young Look' in apparel, sportswear and accessories," said a management spokesman.

Among the guests were Mrs. Ruth P. Cleaver, Miss Anna Mae Bigham, Mrs. John G. Rummel, Mrs. Simone R. Sanborn, Mrs. William E. Fiesel, Mrs. John W. Bolinger and Mrs. Paul L. Dougherty. Following dinner, "exciting highlights" of the new spring fashions were discussed.

Low Base Bids For New County Home Tabulated At "Bargain" \$336,225

Adams County's new county home can be constructed for about \$336,225 according to bids submitted to the commissioners at the court house Monday night.

The exact cost of the structure could not be immediately determined because there were five alternates in the general construction bids, and several alternates in each of the bids for the other contracts.

E. Donald Scott, president of the commissioners, said they will tally the various alternate bids and base bids and reach a decision, "most likely," at their meeting Wednesday on firms to which the contracts will be awarded.

Call It "Bargain"
That determination of possible alternates will also determine the exact amount the construction will cost.

But the base bids, as submitted Monday night show that the cost, if the contracts go to the lowest bidders at the exact base bid will be \$336,225.

The commissioners and others present expressed their belief Monday night that the building will be a "bargain." Estimates of costs had been much higher than the actual bids proved to be.

That there was much interest in construction of the 80-guest county home was shown by the fact that there were 15 bidders for the general contract and nearly as large a number for the heating, plumbing and electrical work. Thirty-two persons were present for the opening of the bids, mostly representatives of the various companies which had submitted offers.

Low On Base Bids
The low base bids Monday night were: General construction—A. B. Seifert and Son, York, \$230,000; heating — Kottcamp Construction Co., Chambersburg, \$38,426; electric—Keystone Engineering, Reading, \$22,500; plumbing—Ramsey's, Inc., Harrisburg, \$47,597.

Alternate Bids
In the general contract alternate A represented placing terrazzo floors; alternate B, plastic face block as wainscoting in corridors; alternate C, placing aluminum windows instead of steel; alternate D, plastering of all exposed walls and alternate E, using 1/4-inch steel studs in lieu of four- and six-inch block partitions. Alternates in the other bids were based upon the changes that would be caused by determination of one or another of the five alternates in the general construction bids.

The general construction bids and alternates, with the amounts listed in addition to the base bid unless specified as a deduction were as follows: H. B. Alexander and Son, Inc., Harrisburg, \$246,000, A—\$6,400, B—\$5,900, C—\$4,000, D—\$3,200, E—\$4,300; Earl L. DR. M. MARTY TALKS HERE ON "MASS MEDIA"

Dr. Martin E. Marty, associate editor of "The Christian Century" magazine, spoke on "Man in the Mass" Monday in the first of three daily lectures during Religious Emphasis Week at Gettysburg College. Overall theme is "The Message and Mass Media."

The mass media most of all violate the centuries-old tradition of Christian isolation from outside forces, Dr. Marty said. "The mass media are the products of the twentieth century."

As sons and daughters of the twentieth century we must live with them. The context of our time is radical change," he declared.

Dr. Marty cited three motives for using the mass media: 1. Selfless presentation of ideas, 2. Commercial motivation which colors almost everything in the mass media, 3. Controlling others, "the most dangerous motive."

SNOW AND RAIN SPREAD OVER TWO VALLEYS

By THE ASSOCIATED PRESS
Wet weather, with snow and rain, spread across the lower Mississippi Valley and lower Ohio Valley today as cleanup operations continued in snow-stricken areas in the East and South.

A snowstorm which swept across sections of the southern Plains spread into Arkansas and hit areas in southern Illinois, parts of Kentucky and Tennessee. The storm, which left a covering of nine inches on parts of Oklahoma, was expected to dump from two to four inches in Kentucky and Tennessee.

Southeast Kentucky was hard hit by the weekend snowstorm which raked wide areas in the South and East. Mountain areas were blanketed with heavy snow and most schools in eastern Kentucky remained closed.

Two Freeze To Death

The weekend storm death toll in Kentucky mounted to five Monday when the bodies of an elderly brother and sister were found in a cabin near Glasgow. Doctors said both probably froze to death.

Belated reports across the storm belt, hit by gale-force winds, snow and sleet, showed at least 5 deaths attributed to the weekend stormy weather, which was winter's worst in many areas. Pennsylvania reported the most deaths, 15, including a 7-year boy whose sled crashed into a stone house in Philadelphia. An estimated 100 children were injured in sledding accidents in Pennsylvania in two days.

Temperatures were higher than 24 hours earlier in most parts of the country. The 30s were the rule in interior sections and the 40s and 50s along the West Coast and in Florida. Sub-zero marks in Michigan were replaced by temperatures in the 20s.

The Hagerstown group is anticipating a large gathering when their colleagues join them for tours to the battle areas of South Mountain, in Washington County, Md., and Harpers Ferry, and to the Antietam Battlefield. The assembly will have as its guest speaker Dr. David S. Sparks, professor of history at the University of Maryland.

opinion, is sufficient to justify the belief that the improvement of the Sangamo River is an object much better suited to our infant resources. He then described at length his plan, based on personal study, for making the river navigable.

"This was a self-educated young man of 23 speaking, and he wrote better than most college students for that matter. His thoughts were clear and to the point and well presented. Would one call such a man a failure?" "Let's listen to what this young man had to say in the same speech about education: 'Upon the subject of education, not presuming to dictate any plan or system respecting it, I can only say that I view it as the most important subject which we as people can be engaged in.'"

"Moderate Education" "That a every man may receive at least a moderate education, and thereby be enabled to read the histories of his own and other countries, by which he may duly appreciate the value of our free institutions, appears to be an object of vital importance, even on this account alone, to say nothing of the advantages and satisfaction to be derived from all being able to read the scriptures and other works, both of a moral and religious nature, for themselves."

"The youthful Lincoln concluded his first political writing by declaring, 'Every man is said to have his peculiar ambition. Whether it be true or not, I can say for one that I have no other so great as that of being truly esteemed of my fellow man by rendering myself worthy of their esteem. How far I shall succeed in gratifying this ambition is yet to be developed.' Can we not say that that early ambition was perfectly developed?"

MRS. FDR IS
SINATRA SHOW
GUEST MONDAY

By CYNTHIA LOWERY

AP TV-Radio Writer

NEW YORK (AP)—Mrs. Franklin D. Roosevelt has turned up in some unlikely spots in her travels. Possibly the most curious spot of all, however, was Monday night when the former first lady was a guest star on the Frank Sinatra Show (ABC).

There, in the company of singers Sinatra, Lena Horne, Mary Costa, Barbara Juliet Prowse, and comedienne Dancer Heller, Mrs. Roosevelt smiled graciously, spoke approvingly of optimism and read the lyrics of the song "High Hopes" to a musical background.

I enjoyed most Mrs. Roosevelt's rendering of the line, "Ooops, there goes another rubber tree plant, kerpunk."

As Sinatra was on his best behavior, there was no slang, not even much conversation, and everyone sang familiar songs enthusiastically and attractively.

Out Of The Past

From the Files of the Star and Sentinel and The Gettysburg Times

FIFTY YEARS AGO

Search For Copper: Harry Arnold, of Dillsburg, has purchased the farm of James Livingston in Latimore Twp. for \$7,000, possession given on April 1. Mr. Arnold made the purchase for a company of capitalists who intend to sink a shaft in search of copper of which there is plenty of evidence in that vicinity.

Leg Broken In Accident: Four people were thrown from vehicles, a small boy had his leg broken, a sleigh was demolished and a two-horse team ran away in an ugly driving accident which happened early Monday evening in the Bonneauville bridge east of town. The boy who had his leg broken was the four-year-old son of Mr. and Mrs. Edward Redding, who resides on the Smith farm on the Bonneauville Rd., a short distance from town.

Mrs. Redding and the boys were driving in a sleigh through the bridge when John Rinehart and another man, whose name we have been unable to learn, came in from behind them in a large sled drawn by two horses. The noise of the runners of the sled on the floor frightened Rinehart's horses and they started to plunge and run, finally jumping up against the Redding sleigh and upsetting both vehicles, the sleigh being completely demolished.

The men escaped with a few bruises but the Redding boy had his leg broken at the thigh. His mother was also considerably bruised. The boy was taken home and Dr. Hartman, assisted by Dr. Dalbey, reduced the fracture.

The Redding horse stood still but those of Rinehart went on through a hedge and several other fences before they were caught.

Short Personal Paragraphs: W. C. Sheely has purchased through C. H. Spalding, agent, of Martinsburg, a new Chalmers-Detroit auto. The machine arrived Saturday.

Dr. C. N. Gitt spent Sunday in York.

Will M. Seligman has returned to his home in this place after a three-week business trip in the western part of Pennsylvania.

Rededicated Free Of Debt: On Sunday the recently remodeled Lutheran Church at Heidlersburg was rededicated with impressive services, the sermons being delivered by Rev. George F. Parker of the Gettysburg Theological Seminary.

The church has been recently recarpeted and repapered. New lamps have been procured and the pulpit has been rearranged, making the interior most beautiful. The doors of the church have also been changed, an acceptable improvement.

The cost of the changes and improvements amounted to \$25. Of this amount \$138 was raised before the services of rededication. At the morning service almost \$100 was raised and at the evening service enough was received to make the total contributions of the day \$125, or more than enough to pay the expenses incident to the remodeling.

State Places Quarantine On All Town Dogs: The State Livestock Sanitary Board has ordered a 100-day quarantine on all dogs in Gettysburg and has ordered the following published: Notice To Owners Of Dogs Regulations relating to dogs in the Borough of Gettysburg, Adams County:

Whereas there is reason to believe that the disease known as rabies or hydrophobia exists in the Borough of Gettysburg, Adams County, and the nature of this disease is such that for the present all dogs within such borough must be suspected of being capable of spreading it:

It is hereby ordered, by authority of the State Livestock Sanitary Board, that all dogs in the above described district are hereby declared to be in a state of quarantine and must be strictly confined or firmly secured on the premises of their owners and not allowed to

Today's Talk

THE POETS AMONG US

Some of the greatest poets in the world are those who never wrote a verse. Poetry is always a feeling first, and expression afterward. The business of being a poet involves the point of being happily dressed up to enjoy the real world.

Almost the very first thought aroused when the statement is made that a certain one "writes poetry," or "is a poet," is that he thinks in the language of beauty.

Most of us are poets. We hear an exquisite song, a marvelous melody floats through the air and touches our senses, a creeping fragrant breeze wings toward us, a storm brews, leaves flutter, a spring sun spreads its warm rays, an autumn rainbow touches the earth, a western sunset thrills with its grandeur; waves ripple upon a Nova Scotian lake—all exquisite expressions of poetry! To catch the value of these things is to live the life of a poet.

You don't have to earn money at writing lines in order to live the life of a poet, or to get the thrills from the rhythmic waves that sweep over your brain as you think about and express poetical things of life. A human may be poetical in his bearing, in his dress, in his smile, in the way he does his work, as well as through the words that he expresses.

If poetry could be expressed by a mere word, that word would be—beauty. Whenever you think a beautiful thought or are inspired by a beautiful sight or deed, you are playing upon threads that hold melody, intangible as it may seem.

Can you think of a better business to be in than that of being a poet?

Tomorrow Mr. Adams will talk on the subject: "The Joy of Autobiography."

Just Folks

LIFE
The dog has life, the breathing ant
Is living here, as you and I;
And in the yard the humblest plant
Lives out its life beneath the sky.

Life, in itself, is all about;
'Tis given not alone to man.
For life we are not singled out
And favored by some special plan.

Life's but the opportunity
To work and be of service here.
A thousand creatures we may see
Who merely live from year to year.

And to the creatures we descend
If his is all that we bequeath
Those who surround us at the end,
That life is just the power to breathe.

MODEL CRIES

TESTIFYING

By DIAL TORGERSON

LOS ANGELES (AP)—Pretty Carole Tregoff burst into tears her first day on the witness stand at her murder trial with Dr. R. Bernard Finch.

The 23-year-old ex-model was being cross-examined Monday about the night Finch's wife was shot to death. Carole testified she and the doctor tried to talk to his wife about a divorce. Mrs. Finch refused, said Carole.

The prosecutor's rapid-fire questioning continued.

"What happened next?"

"The next thing that happened, she had a gun."

"How long after she said she didn't want to talk to you was it before you saw this gun?"

Tears came to Carole's eyes.

"Just in time for her to turn around, take the gun out of the car and turn around," she replied.

Then Miss Tregoff cried.

Prosecutor Clifford Crail snapped, "I have no intention to examine this witness under these conditions."

Interrupted Carole: "I'm okay." Dabbling at her eyes with a handkerchief, she continued.

SLAYER TURNS

TO HIGH COURT

SAN FRANCISCO (AP)—Carly Chessman's fight for life shifted today to Washington, D.C., and the U.S. Supreme Court.

With Chessman scheduled to die in the San Quentin gas chamber at 10 a.m. Friday, Sacramento attorney Rosalie Asher was in the nation's capital seeking a Supreme Court justice to ask for a writ of review and permission to file an original writ of habeas corpus. Both would carry requests for a stay of execution, said Chessman's other attorney, George T. Davis. The high court is in recess until March 1.

The 38-year-old convict-author, convicted in Los Angeles in 1948 of robbery and kidnap charges involving forcing two women into unnatural sex acts, has had seven stays of execution in his 11½ year-old battle waged from death row. He lost another appeal Monday when a three-man panel of the U.S. 9th Circuit Court of Appeals refused him a stay of execution and upheld its chief justice's earlier ruling refusing him a certificate of probable cause for appeal.

TWO BROTHERS

DROWN IN POND

PHILADELPHIA (AP)—Two small brothers drowned Monday in a neighbor's pond.

Five-year-old Clarence R. Brunell and his brother Frank R., 3, were found lying in 30 inches of water by their mother, Catherine Brunell.

Police said the boys apparently fell through the ice and their heavy clothing pulled them under the water.

Dr. Robert Dreher of Wind Gap was unsuccessful in his attempt to revive them.

Mrs. Hannah Luckey, the boys' grandmother, said they had been over to visit her and then went outside. When they did not return, she began looking for them.

The pond is on the property of John Duval and is between the boys' home and that of Mrs. Luckey.

NEW MILFORD, Conn. (AP)—Mrs. Rine Lardner, 72, widow of the writer-humorist, died Monday. Her husband died in 1933. Mrs. Lardner, mother of two sons, John and Ring Jr., was born in Goshen, Ind.

PHILADELPHIA (AP)—Dr. Leslie Pinckney Hill, 75, president of Cheyney State College for 37 years until his retirement in 1951, died Monday.

Finds Two Routes

To Data On Moon

NEW WESTMINSTER, B.C. (AP)—Space is the hobby of Arthur Saul, 19, of New Westminster so he wrote to the Soviet Union for pictures of the far side of the moon. He also wrote to the Mount Palomar, Calif., Observatory for photographs of other astronomical bodies.

Within a month he received from the Soviets three photos of the moon's other side, a letter from the astronomical council of the U.S.S.R. Academy of Sciences and a book of information on the moon.

Then an envelop came from California.

It contained a catalogue giving the prices of various pictures and information.

JOHN A. SMITH

IS GIVEN JOB

HARRISBURG (AP)—John A. Smith, ousted as a member of the Milk Control Commission by Senate refusal to confirm his reappointment, has been given a job as a milk utilization adviser in the Agriculture Department.

In naming Smith to the \$9,923-a-year post Monday, Secretary of Agriculture William L. Hennings praised the Cumberland County dairyman as an expert in milk use.

"In this capacity, Mr. Smith will be able to continue to make valuable contributions to Pennsylvania's dairy industry," said Hennings.

Smith, of Dickinson, was forced out of his post as a member of the three-man Milk Control Commission Jan. 5 when the 1959 Legislature adjourned without confirming his reappointment.

His salary as a milk commissioner was \$10,000 a year. Gov. Lawrence submitted his name to the 1960 Legislature for confirmation to the milk commission post, but it has been blocked by the Republican-controlled Senate Executive Nominations Committee.

Plans On Freeway

HARRISBURG (AP)—The State Highways Department is moving as fast as possible on plans for construction of the Erie-Pittsburgh-West Virginia Freeway, says Highways Secretary Park H. Martin.

He outlined progress of the north-south highway in a letter Monday to Robert S. Bates, Meadville, chairman of the Erie-Pittsburgh-West Virginia Freeway Assn.

Martin said location surveys for a section of the freeway between Meadville and Erie will be completed as soon as a location is determined for a spur between the city of Erie and the Erie Throughway.

Coal Research Bill

Studied In Senate

WASHINGTON (AP)—A bill providing for a new coal research program to be supervised by the Interior Department is being considered by the Senate after House approval.

The bill, passed by the House Monday, authorizes a two million dollar appropriation to get the program underway.

Rep. John P. Saylor (R-Pa.) sponsored the measure. It is tailored to meet objections of President Eisenhower. Last year he vetoed a bill which would have placed the research program under a separate agency.

The bill would authorize the secretary of interior to contract for coal research with state and local research agencies and private organizations.

BUTTON FOR

FISHERMEN

NOT MISSED

HARRISBURG (AP)—The Pennsylvania Fish Commission feels that elimination of the fishing license button can't help but be successful.

The traditional buttons are no longer issued to anglers. They were eliminated this year. The commission estimates the savings at \$25,000 to \$30,000 annually. This money will be applied to other commission programs.

No Real Purpose

"The button itself served no real purpose," Robert C. Glover, chief of the Conservation Education Division, said today. "Pennsylvania was the last state here in the East that had the buttons, and many states have not had them for years."

What has been the reaction of Pennsylvania fishermen?

"They have merely shrugged off the change," Glover said. "There has been no adverse reaction from them."

Some Dismayed

He added:

"This only means probably in some instances a more thorough check of the fishermen by the wardens. But the warden doing a good job never paid attention to the buttons anyway, because they can be traded or borrowed."

Instead, the warden relies on license papers to identify the properly licensed fisherman, Glover said.

Then is everyone happy with the change? Not quite, reports Glover. People who collect the buttons as a hobby have registered dismay at the elimination of their source of supply.

Ike's Farm Message

Backed By Benson

WASHINGTON (AP)—The farm message President Eisenhower sent to Congress last week was based on sound economic principles and was not a political document for an election year, says Secretary of Agriculture Ezra Taft Benson.

Benson said the message was delayed "so that many people could be invited to offer suggestions and make recommendations."

He was asked during a taped TV-radio interview Sunday whether the message was not changed at the request of certain Republican senators from farm states to make it easier for them to be re-elected.

"No, I think that is not true," Benson replied, adding that often the original draft of a message is changed substantially before it becomes final.

88-CENT HOLDUP

CHICAGO (AP)—A young man with a knife held up a banker in the Gold Coast section on the near North Side Sunday night and got 88 cents.

Lawrence F. Stern, 71, chairman of the American National Bank & Trust Co., told police he was accosted by the robber while he was out for a stroll near his home in the Ambassador East Hotel. He said the 88 cents was all the money he had with him.

29 Oil Firms Are

Freed Of Charges

TULSA, Okla. (AP)—Price conspiracy charges against 29 major oil firms were dismissed Saturday.

U. S. District Court Judge Royce Savage, who heard the case without jury, dismissed the charges 10 days after the start of the trial. Defense attorneys never presented their case.

The government's chief prosecutor, Joseph McDowell, said there could be no appeal.

Judge Savage said the government did not lift its case "above the level of suspicion." The government contended the oil firms plotted to raise prices by using the 1956 Suez Canal crisis as an excuse.

LAWRENCE TO

CONFER IN D.C.

WASHINGTON (AP)—Gov. David L. Lawrence of Pennsylvania will meet here Wednesday with a group of metropolitan mayors and government leaders to discuss federal aid for new transit systems.

Lawrence and the mayors are pushing a proposal which would establish long-term, low interest loans to cities, public authorities and other public bodies for purchase of equipment and rail commuter or mass transit facilities. They would be leased to operators.

Lawrence also will join his state's 30-member congressional delegation in a meeting with officials of the Pennsylvania League of Cities and the Pennsylvania State Assn. of Boroughs.

About 75 mayors and burgesses are expected to attend the meeting. The group includes Mayors Richardson Dilworth of Philadelphia and Joseph M. Barr of Pittsburgh.

Discussion of housing and urban renewal, water resources, mass transit systems, and the possibility of payments in lieu of taxes for federal use of real property are on the agenda.

Nehru Invites Chou

To Discuss Trouble

NEW DELHI, India (AP)—Prime Minister Nehru has invited Red Chinese Premier Chou En-lai to talk with him in New Delhi on the Chinese-Indian border dispute.

Nehru invited Chou to come at his convenience but suggested the second half of March as a likely time.

His letter of invitation was dated Feb. 5. It was made public in Parliament Monday.

Nehru's agreement to meet with Chou reversed the Indian Premier's previous stand that such a top-level negotiating session would have no value as things stood in the border dispute.

A passerby turned in the alarm. Moments later, the fire erupted with such fury it blew out windows in the house. When firemen arrived, flames were spewing from both floors.

Firemen said the dead were Mrs. Ronald Salt Jr., 23; her four children, Marilyn, 5½; Larry, 3½; Bonnie, 2½ and Billy 1½; and her sister, Patsy Jean Taylor, 15, Nashville, Tenn.

Nixon Bans Religious

Issue, Dirt In Race

DETROIT (AP)—Vice President Richard M. Nixon opened a one-day Detroit speaking visit Monday by telling a news conference he hoped for a campaign with no mud slinging and no religious issues.

Nixon, who arrived with his wife, Pat, Sunday night for a 12-hour tour of the traditionally Democratic motor city, told newsmen: "All agree religion should not be an issue; it will not be so far as I am concerned. It would be personally reprehensible to me."

The man with the apparent inside track to the Republican presidential nomination then added: "My view is that the country has moved far ahead since 1928 and I would not want to believe that the so-called religious issue would have the impact it had in 1928."

Nixon's statement referred to the fact that Sen. John Kennedy (Mass.), one of the Democratic candidates for the presidential nomination, is Catholic. The 1928 reference was to the defeat of Al Smith for the presidency which was attributed at least in part to Smith's being a Catholic.

FRANCE MAY

MAKE H-BOMB

PARIS (AP)—Talk of a French hydrogen bomb mounted Monday in the wake of France's first atomic explosion.

Pierre Guillaumat, France's new atomic energy boss, confirmed that the project was being studied at a news conference called to give details of Saturday's blast in the Sahara Desert.

Asked if steps were being taken to make an H-bomb, Guillaumat hesitated, then replied, "the problem is being considered."

Defense Minister Pierre Messmer told a news conference: "We have taken an important step with the explosion of the bomb. But we have not yet reached our goal. We will continue to work to give France a striking force of nuclear warheads and the means to deliver them."

A call for a French H-bomb came from Jacques Soustelle, former atomic chief fired by President De Gaulle in a dispute over Algerian policy.

Writing in the newspaper *Aurore*, Soustelle defended the French atom bomb test and said France has an obligation to make a hydrogen bomb if she can.

Redevelopment

Bills Questioned

WASHINGTON (AP)—Rep. Paul B. Dague (R-Pa.) has expressed doubts about the merit and necessity for area redevelopment legislation.

"If a bill came to the floor today I would probably vote against it," Dague told a newsman.

Dague said he has been impressed by a great improvement in business conditions around the country since last year's recession.

"And I think the depressed areas themselves and the state of Pennsylvania itself are doing a pretty good job in pulling themselves up," Dague said.

He said his principal reluctance to vote for the bill, however, stems from a fear that the proposed program would indirectly raid industry of other areas in trying to bring new plants to depressed areas.

2 HORSES KILLED

IN STABLE BLAZE

BUFFALO, N. Y. (AP)—Two horses were killed and 28 others stampeded, some onto the runways of the Buffalo International Airport Monday, when fire swept a riding stable in, suburban Cheektowaga.

The landing of a Capitol Airlines flight was delayed briefly as employees of the airport rounded up the strays on the main runways.

One of the horses bolted from the burning Roy Roy riding and boarding stable and was struck by an automobile as it crossed a road. It later was destroyed by Cheektowaga police. Another horse perished in the fire.

The fire caused an estimated \$45,000 damage.

The origin of the fire was not determined.

Warriors Bullets Play At Home This Evening; Bolts In Crucial Game

Local basketball fans will have the choice of two home attractions tonight, Gettysburg High entering Waynesboro in a South Penn League doubleheader while the Gettysburg College cagers are host to Dickinson in another twin bill.

On the high school floor the Warriors will attempt to avenge a first-half defeat, Waynesboro having jolted the Forney-men 45-40 at Waynesboro.

The Indians won their 10th game of the season by defeating Cedar Cliff easily 76-58 on Friday and come here, confident of another victory over the Warriors. Gettysburg is 9-7 overall while Waynesboro is 10-7.

In the preliminary at 6:45 the Waynesboro reserves will also attempt to repeat an earlier victory.

Gettysburg College, stunned at Lebanon Valley on Saturday 67-64, will attempt to get back into the victory column at the expense of Dickinson.

The Bullets whipped the Devils at Carlisle 86-70 on January 12 and should be able to repeat that performance.

At 6:45 the freshman teams clash.

Canners At Hanover
In addition to the Gettysburg Waynesboro game here, one other South Penn League game is scheduled tonight, Biglerville invading Hanover.

Three South Penn Junior High League games tonight include Gettysburg at Waynesboro, Hanover at Biglerville, and Shippensburg at Chambersburg Central.

Littlestown can assure itself of at least a tie for top honors in the Adams Division of the Adams-Franklin League with a victory tonight at New Oxford. The Colonials are two and one-half games back of the Bolts and another defeat would practically erase their chances. Littlestown will make up a postponed game at Scotland on Wednesday.

Other A-F contests this evening include Greencastle at Berks, Fairfield at Quincy, St. Thomas at Scotland and Fannett-Metal at James Buchanan.

Delone At Lebanon
Delone Catholic, 6-8 overall, will attempt to rebound after its loss at Shamokin when it tangles with Lebanon Catholic at Lebanon in a Central Penn Catholic League game. The Squires must win tonight to retain their second-half hopes in the league. On Friday the Squires meet Bishop McDevitt, first-half titlist, at McSherrystown.

Shamokin will play at York and Lancaster at McDevitt in other league games tonight.

Dignitaries At Mack's Funeral

PHILADELPHIA (AP)—A host of baseball dignitaries, headed by American League President Joe Cronin, Monday attended the funeral of Roy F. Mack, 71, son of Connie Mack.

Mack, who died last Wednesday, was buried in Calvary Cemetery following a requiem mass at Our Mother of Good Counsel Church in nearby Bryn Mawr.

Mack formerly was a vice president and executive officer with the Philadelphia Athletics. He became a vice president of the Kansas City Athletics when the Philadelphia franchise was moved there in 1955.

The Cincinnati Bearcats, who have been rated the nation's top college basketball team since the start of the season, may have to wait until March 9 to prove it to the mythical national championship.

That's the date of the projected title playoff for the Missouri Valley Conference title and an NCAA tournament berth. At present, both Cincy, and second-ranked Bradley, are tied for first place and there doesn't seem to be anyone in the Mo Valley capable of displacing them.

Sportswriters and broadcasters voting in the Associated Press poll gave Cincy 79 first place votes after the Cats won a tremendous 11-point surge in the final five minutes last Friday night to get by St. Louis, 61-58. Bradley received only 21, after beating Drake 68-63 Saturday night, and Houston earlier in the week.

How They Rank

But the Braves received votes of second and third place plenty to amass 1,415 points compared to Cincy's 1,661.

PHILS SIGN TWO

Cardwell was 9-10 with the Phils last year. Mahafey split his time between Buffalo and Williamsport of the Eastern League.

Changes His Delivery

The Baltimore manager has worked near-miracles with dozens of castoffs.

Richards changed Hoefft's whole delivery. He made Hoefft stop dropping his arm way behind his back and shortened his windup.

"I was bringing my arm way around and back, and then whipping the ball," said Hoefft. "Richards said I wasn't getting enough body into the delivery. I noticed a difference right away."

Hepte has been told that he is being counted on for a regular job with the Orioles.

"That's a shot in the arm for me," said Hoefft, "just knowing that Richards is counting on me. I'm convinced I'm ready for a comeback."

CHINA, KOREA OLYMPIC RULE DELAYED AGAIN

SAN FRANCISCO (AP)—The 56th session of the International Olympic Committee concludes today with the troublesome cases of two divided nations, China and Korea, apparently due for postponement at the next meeting in Rome.

Avery Brundage, president of the IOC, said the IOC agreed last year that "any controversial matters" would not be acted upon until a full membership of the IOC is present.

The big item from Monday's meeting was a resolution urging freedom of the press for the entire world in Olympic Games "without any discrimination against any country or any person on grounds of race, religion or politics."

Up To State Department
The resolution developed from a refusal by the U.S. State Department to permit certain East German journalists into the country for the Winter Games starting Thursday at Squaw Valley.

Brundage said the matter is one for the State Department to resolve.

Concerning East German complaints that officials were denied visas, Brundage explained that their quota in ratio to the number of athletes already had been filled in accordance with IOC regulations. The extra applicants were excluded.

It appeared certain that a four-man team from Nationalist China — Formosa — would not be allowed to compete at Squaw Valley.

Their status at present rests with the International Ski Federation, not the IOC. Brundage said he knows of no meeting planning by the Ski Federation.

The same applied to India's one-man ski team, Jerry Bujakowski, Denver University student. Brundage said, however, he understood that the 20-year-old lad's application was filed too late for action.

St. Francis Bows In Overtime 39-38

The St. Francis Xavier basketball team dropped its third game in 13 starts when it bowed in overtime 39-38 to St. Patrick's of York here on Saturday.

St. Patrick's trailed 31-21 late in the first period and then capitalized on careless ball handling and poor foul tossing on the part of the local outfit to knot the score at 34-34 at the end of the regulation game. St. Francis jumped in front in the overtime 36-34 but the tall York squad scored four straight points to clinch the game.

FLECK WINS PHOENIX OPEN IN PLAYOFF

PHOENIX, Ariz. (AP)—Jack Fleck, who for five years was called professional golf's forgotten flash-in-the-pan, was back in the winner's circle today after a victory in an 18-hole playoff for top money in the \$22,500 Phoenix Open.

Fleck, of Los Angeles, came from behind twice Monday to beat Bill Collins, Crystal River, Fla., by three strokes.

Fleck covered the 6,585-yard Phoenix Country Club course in a 3-under-par 68. Collins shot even par.

Back in June 19, 1955, at the Olympic Club course in San Francisco, Fleck rose from professional obscurity to national prominence by winning the U. S. Open in a dramatic playoff with Ben Hogan. After that, Fleck dropped into obscurity again.

But Fleck, who played in only a few tournaments during the next four years, returned to the touring trail this season.

He collected \$3,150 Monday plus a share of receipts from a gallery of 2,500. That was Fleck's first victory since the 1955 open, and the forgotten man was stirring old golf memories.

Collins pocketed \$2,100 plus his share of the receipts.

14th Hole Decides
The two tied at 23—11 strokes under par—in the tourney's regulation 72 holes.

The turning point in the playoff came on the par four 14th hole. The golfers were all even.

Collins drove into the trees. His recovery shot smashed into a trap. He blasted out over the green. He chipped back, the ball again sailing over the green and into the same trap. He finally got out of the trap, and sank his putt for a double bogey 6. Fleck was down in four.

In baseball a base runner is out when he intentionally interferes with a thrown ball or hinders a fielder attempting to make a play on a batted ball.

MOORE SHAKEN BY NBA ACTION LIFTING TITLE

PROVIDENCE, R.I. (AP)—The National Boxing Assn. has lifted old Archie Moore's light heavyweight title and is casting glances at the crown worn by welterweight Don Jordan.

Moore, at his home in San Diego, Calif., was so upset on hearing of the NBA action Monday that he went to bed and, on the advice of his doctor, took sedatives.

He snapped back bitterly at the announcement by NBA President Anthony Macaroni's announcement the title is being vacated because Moore failed to defend it within the prescribed six months.

Watching Jordan
"It took an undertaker (Macaroni's occupation) to take the title away from me," he said. "That's something a challenger was never able to do."

It is for the same reason inactivity that the NBA is keeping close track of welterweight champion Jordan. He was warned he must sign for a title defense against one of the top four challengers by Feb. 15 Monday — or his title would be taken away.

Macaroni said Monday night he has not heard, officially, of any Jordan defense, but the Los Angeles fighter could have signed and the NBA not yet have been notified.

To Discuss Successor
On the light heavy crown, worn by Moore since Dec. 17, 1952, Macaroni said details on a successor will be worked out in a meeting in New York March 5. Any plans definitely will include Harold Johnson, the No. 1 challenger, Macaroni said.

Moore and his manager, Jack Kearns, were "given ample warning and sufficient time," to arrange for a defense, Macaroni said.

"It is evident that Moore's plans are for a third chance at the heavyweight title, rather than a defense of his 175-pound crown," he added.

Still Champ In N.Y.
The NBA Executive Council passed a resolution Dec. 12 that Moore must defend against Johnson not later than Feb. 12 or the title would be declared vacant.

Moore and Kearns showed no inclination to honor the order, Macaroni said.

Moore, whose age is variously listed as 46 and 43 in record books, is still considered the champion in California and New York, which do not belong to the NBA. Massachusetts, another non-NBA state, is scheduled to take action on Moore's status Friday.

President Will Be First U.S. President To Visit Brasilia, Brazil's Capital

Editor's Note — Americans regard as good neighbors the four countries President Eisenhower will visit in South America, but many Americans' knowledge of these neighbors is limited. To provide a pretour insight into the life of these countries, The Associated Press assigned Ben Bassett, the AP's foreign news editor, to visit all four and write about them. Today's story is about Brazil. Ensuing stories will focus on Argentina, Chile and Uruguay.

By BEN BASSETT
Associated Press Foreign News Editor

SÃO PAULO, Brazil (AP)—Brazil is putting on its best summer-time smile for President Eisenhower.

Here below the equator the seasons reverse those in the United States.

This Portuguese-speaking land is first on the tour of four South American nations that Eisenhower starts next week. This is virtually a self-sufficient country, almost as big as the United States but with one-third the population.

Visit Two Main Cities
Eisenhower will parade into both the main cities, Rio de Janeiro and São Paulo, each with a population of about three million. He will be the first U.S. president to visit Brasilia, the nation's new capital.

With only a few thousand persons now, Brasilia is expected some day to surpass half a million. President Juscelino Kubitschek got its construction started in 1956. For many years Brazilians had been planning a new capital away from crowded and of-industrial center is in the midst of a building boom. Office build-

ings and scores of new apartment buildings, of around 15 stories, are going up. The climate is more moderate than Rio's, and the people's energy and drive lead some visitors to call São Paulo the Chicago of Brazil.

Planned Garden Areas

Two dozen impressive buildings, many of 10 stories, are nearing completion. Other government buildings are to come, along with the stores and movie houses a city must have. The whole arrangement, with buildings that are architecturally akin, wide malls and planned garden areas, gives a feeling of openness and orderliness.

One of the striking buildings already completed is Kubitschek's two-story presidential palace where Eisenhower spends next Tuesday night. The glass and whitish marble of its walls, set off by reflecting pools and modernistic statuary, are a vast change from the gingerbread-strung palaces that dominate many capitals.

Will Fly To Rio
Next day he will fly to Rio, where a million citizens—the Cariocas—likely will cheer him.

It is a cosmopolitan city offering wide contrasts. Squatter settlements, called favelas, dot some of its mountains. Nearby in skyscrapers, much of the business of Brazil is done. It is a city with touches of Lisbon and Hong Kong and perhaps a dash of New Orleans.

On his third day in Brazil Eisenhower will fly to São Paulo for another "Vive like" reception. From the airport he can see a skyline that would make any U.S. Chamber of Commerce drool. This is a city with touches of Lisbon and Hong Kong and perhaps a dash of New Orleans.

EMMITSBURG — Brownie Scout Troop One met Friday evening in St. Euphemia's Hall. Mrs. Ralph Long, leader, was in charge. Sixteen girls were present. Following a short business meeting the girls made Valentines for their parents. Games were played and refreshments served.

Susan Keepers celebrated her birthday anniversary Friday.

Ralph Long quietly observed his birthday anniversary on Saturday.

Approximately 150 members, guests and friends of Brute Council 1860, Knights of Columbus, were present Thursday evening at the VFW Annex for the Second Knight of the Year banquet. Toastmaster Lumen F. Norris introduced the guest speaker, Congressman John Foley, who showed films of his trip abroad. The Rev. James Twomey presented John Edwin Chrismer with the Knight of the Year plaque. Grand Knight Curtis D. Topper presented certificates to all past grand knights. The oldest member and past grand knight present was Thomas J. Norris. Congressman Foley congratulated the council for its recent boost in membership. On January 1, 1958, there were 47 members. Today the council has a membership of 135. Following the banquet, which was catered by the Shelter House, Gettysburg, dancing was held from 9 to 12.

Work Two Jobs

The white collar worker in Brazil makes about \$65 a month. A lot of people meet their bills by working two jobs. For the things in the stores are tempting, and today an ad invites you to fly away on a vacation abroad.

"Vaje agora pague depois," it says.

In the years to come many Brazilians may fly now, pay later. That is, unless today's inflationary conditions bring the government to a point where it must impose some of the austerity that neighboring Argentina has put into effect.

Even if that happens, the optimistic Brazilians will make the most of it. Somebody will write a samba.

NEXT: Argentina.

Scribe's Mail Brings Lot Of Interesting, Odd Facts

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

The harder machines work, the more jobs there are for people. With machines now doing 94 per cent of the work, there are more jobs available per 1,000 population than there were in 1850, when machines did but 6 per cent of the work.

American women now spend over one billion dollars annually in beauty parlors.

"Rainbow Look"

Sir Winston Churchill is one leader who places a high value on experience. "The farther backward you can look," he once said, "the farther forward are you likely to see."

What next? Models at the Grace Down School here are sporting a new fad—multicolored eyelashes. They give a girl that "rainbow look."

Gag of the week: "A sailor," says singer Sheila Reynolds, "is just a wolf in ship's clothing."

At what age did you marry? Until recently a girl could wed at 12 in Northern Ireland. She still can in Rhodesia and the Fiji Islands.

30 Dishes A Day

Household hint. It's smart to coat all door knobs and hinges lightly with petroleum jelly before painting a room. Then if paint drops on them, it can be easily wiped away.

A recent survey found the average woman washes only 30 dishes daily. My wife, when informed of this, asked in disbelief: "What does she do with the others — just throw them out the window?"

No wonder it's so difficult to achieve peace and real understanding on earth. The world still has more than 700 million adults who can neither read nor write.

If starlings are a nuisance in your city, you can blame Eugene Schieffelin, a 19th Century bird fancier. He imported 40 pairs of starlings from England in 1890 and turned them loose in Central Park in Manhattan. And they spread across the land like a feathered plague.

150 Days For A Nail

If you are tense, it may spring from an inability to make up your own mind. William James, the noted psychologist, warned, "There is no more miserable human being than one in whom nothing is habitual but indecision."

Time on your hands. Ever wonder how long it takes to grow a full fingernail? About 150 days. Anyone who ever worked for a living should appreciate this definition of a boss: "He's the man in your office who is early when you're late—and late when you're early."
